

Diamond PCD Compression Router Bits 2 Wing

Applications

- Grooving, jointing, rebating, sizing of plywood

Advantages

- Large gullet areas
- High rigidity

Technical Information

- RPM: 18,000-35,000
- Feed rate: 590-1375 in/min (depending on material type and thickness)
- Up spiral length 255
- Maximum material thickness: 905

Part No.	D	L2	L1	S
RN320	16	25	95	20x55
