

A versatile router bit excellent for various types of cuts such as dados, rabbets, plunge routing, mortise cuts, edging, trimming, sizing, etc. Use 2 flute router bits when you require a good final cut and finish on the material. When using hand routers it is recommended that you use a template or a guide system to provide accurate cuts. Can also be used on pin and CNC routers. Use the smallest cutting edge length to reduce vibration and the susceptibility to router bit breakage.

## 1/4" Shank

Part No.	<b>Cutting Diameter</b>	Cut Edge Length	<b>Overall Length</b>	Shank Length
RC135	1/4	1/2	2	1-1/4
RC141	1/4	3/4	2-1/4	1-1/4
RC144	1/4	1	2-1/2	1-1/4
RC147L	1/4	1	2-1/2	1-1/4
RC149	1/4	1	3	1-3/4
RC151*	1/4	1	3-1/4	2-1/4
RC153	9/32	1	3	7/8
RC156	5/16	1	2-1/2	1-1/4
RC159	3/8	3/4	2-1/4	1-1/4
RC162	3/8	1	2-1/2	1-1/4
RC165	3/8	1-1/4	2-3/4	1-1/4
RC168	7/16	1	2-1/2	1-1/4
RC171	1/2	3/4	2-1/4	1-1/4
RC174	1/2	1	2-1/2	1-1/4
RC177	9/16	3/4	2-1/4	1
RC179	5/8	3/4	2-1/8	1
RC183	11/16	3/4	2-1/8	1-1/4
RC186	3/4	3/4	2-1/8	1
RC189	1	3/4	2-1/8	1-1/4

\* Widely Used on Air Routers

## 3/8" Shank

Part No.	<b>Cutting Diameter</b>	Cut Edge Length	<b>Overall Length</b>	Shank Length
RC212	3/8	1	2-5/8	1-3/8
RC213	3/8	1-1/4	3-5/8	2
