

A line of saw blades specifically designed to cut light weight **paper and plastic covered foam** art and sign boards such as Foam-Cor® and GatorPlast®. The PLF Series of blades are ultra thin kerf, and fitted with a maximum number of sharply pointed, shear-face, negative rake teeth.

The PLF Series of blades produce extremely **clean, sharp edged and razor-like cuts** in all foam board brands.

Type PLF - 8" x 80T

Table Saw Applications

Paper and Plastic Covered Foam (ATB / AFB Grind)
